

Chase Agee

Oakland, CA | 907-317-5237 | chase.agee@email.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SKILLS

Languages: JavaScript, Python, HTML, CSS, SQL

Frameworks/Tools: React, Redux, Express, Flask, NodeJS, PostgreSQL, Sequelize, SQLAlchemy, Alembic, AWS, Google Maps API, Docker

Key Skills: Pair Programming, REST APIs, Object Oriented Programming (OOP)

PROJECTS

Get Together

[live](#) | [github](#)

React/Redux, Express, Sequelize, PostgreSQL, HTML, CSS, AWS S3

- Implemented AWS S3 to allow users to upload profile, group, and event images
- Created users by authenticating with JWT and hashing passwords with Bcrypt to ensure security
- Utilized React Router package to render error messages and error status codes

LaunchPad

[live](#) | [github](#)

React/Redux, Python, Flask, SQLAlchemy, PostgreSQL, HTML, CSS, AWS S3

- Implemented pagination to reduce response time and the amount of data in a response
- Implemented a search feature in the navigation bar for users to quickly find their interests
- Created a comment feature with logic to handle unlimited nested replies
- Implemented AWS S3 to allow users to upload project and reward images
- Designed a progress bar to dynamically render based on a project's values
- Collaborated with 2 teammates through daily stand ups and pair programming to complete features

Advanture

[live](#) | [github](#)

React/Redux, Python, Flask, SQLAlchemy, PostgreSQL, HTML, CSS, AWS S3, Google Maps API

- Integrated Google Maps API to allow users to visualize the location and prices of vans
- Incorporated Geocoding API calls to get coordinates of the user and vans being updated or created
- Implemented AWS S3 to allow users to upload van images
- Designed and implemented a system for ratings to be averaged in the backend for quick rendering on the DOM

EXPERIENCE

Base Camp Bakery

Founder, Owner, Operator

Jan 2018 - May 2023

- Founded a bread bakery, built it up to a \$500k grossing business with 6 employees
- Performed interviews, hiring, training and managing every employee
- Cultivated a fun and supportive atmosphere while holding high standards for our products
- Performed bookkeeping, accounting, and government compliance responsibilities

Pain Bakery

Head Baker

Aug 2015 - Aug 2017

- Assisted in starting a bread bakery, helping it to become a recognized brand
- Streamlined production workflows, increasing productivity and employee satisfaction
- Established standard operating procedures, reducing costly errors and increasing employee cohesion

EDUCATION

App Academy, Full-Stack Software Development Course

Sept 2023 - Mar 2024

University of Alaska Anchorage, Associates of Applied Science, Culinary Arts

Sept 2006 - May 2009
